

2023 Agency Partner Grant (APG): Infrastructure Application Instructions & Guidance

Program Overview

The Agency Partner Grant (APG) program awards funding to non-profit agencies based on their ability to demonstrate they can fill a gap where an existing community need exists. The needs for this grant program were established by taking into consideration conditions that limit individuals from achieving their fullest social, economic, or health-related potential, with input from participating members of the Dutchess County Coalition of Nonprofits and other community stakeholders. APG needs are reviewed annually, and as a result, the needs may evolve from year-to-year.

A total of \$1 million was appropriated in the 2023 Dutchess County Budget to support 501(c)(3) non-profit capital infrastructure initiatives. Nonprofit organizations implement critical programs that address service gaps and other identified needs to our neediest populations. While the county has provided critical funding to support APG programming needs, there is an additional need to support nonprofit capital infrastructure projects.

Questions & Answers (Q & A) 2023 Agency Partner Grant: Infrastructure

Q1: Are matching funds required?

A1: Matching funds are not required; however, activities that provide matching funds will be ranked higher during the application review.

Q2: Are letters of support required and/or allowed?

A2: Letters of support are not required and should only be included to make a compelling case for your project. Memorandums of Understanding (MOUs) should be submitted, if applicable.

Q3: If a non-profit has several residences (for their service population) in need of capital improvements, could one grant request "bundle" these projects?

A3: Yes, you can include capital improvement requests for several locations for the same organization in one application, as long as all of the locations are servicing Dutchess County residents. Please be sure to include specific details about each project in the application.

Q4: Can you include personnel expenses like project manager? What about partial salaries of employees that will work on the project or ancillary activities like ribbon cuttings?

A4: Yes, personnel costs should be charged as actual hours spent on the funded activity. If you are hiring a project manager/consultant, those costs should be listed as contractual/consulting services. Ancillary activities, such as ribbon cuttings, are not eligible expenses as part of the grant program.

Q5: On the budget form, should construction costs be listed under "Other"?

A5: Yes, please list construction costs in the 'Other' budget line.

Q6: For a large construction project, do we need to list every element by specific cost or can we describe the project in the narrative and ask for an overall cost?

A6: You can describe the project in the narrative and provide the overall cost. The specific costs for the project should be listed in the Activity Budget, including a description/explanation.

Q7: If we submit a significantly high grant funding request and the County would prefer to "spread out the funds," will it automatically reject our proposal or might it grant partial funding?

A7: The request would not be automatically rejected. There is no maximum funding limit established; however, the County plans to fund multiple projects. Depending on the number of requests received and the amount requested for each project, partial funding may be considered as the County does intend to fund multiple projects.

Q8: Please provide guidance as to what should be included in the timeline, given the request is for equipment installation, rather than a specific project or program.

A8: Please include in your timeline information when you expect to obtain quotes for the equipment purchase, when you will purchase the equipment, and when you will install the equipment, etc. Please make note of the Dutchess County Procurement Policies and Procedures chart below.
